- Normally no Monitors required, though we might use some upright bass on the monitor if we don't use a bass-combo. If so, we only need 1 monitorbox.
- We need 1 free 31 band Equalizer for insert on the Audio Technica AT4033 channel
- Phantom Power (48v) on channel 2 and 3
- F.O.H. speakers not on stage and not too close to the AT4033
